

BUSINESS BECOMES STYLE

Professionalism and careful attention to detail make the Regina Palace Hotel the perfect place to hold a congress. The hotel has been hosting congresses since the early '70s and has developed outstanding professionalism in this field over the years. The hotel provides business guests with everything they could possibly need, offering top quality solutions for events of all kinds with guaranteed efficiency, top class hospitality and truly exceptional meals.

An outstanding record

Over the years the Regina Palace Hotel has hosted such important institutional events as the 1984 NATO Convention, the 2003 EcoFin attended by Europe's finance ministers, the International Conference on the Future of the Wto and the First National "Associations for Social Promotion" Meeting in 2005.

Countless private enterprises have turned to the Regina to organise their meetings, including Panasonic, San Pellegrino, Iveco, RCS and numerous automobile manufacturers. The Regina Palace Hotel has long worked in partnership with Stresa's Congress Centre, directly accessible through the hotel.

The Regina Palace Hotel participates in the "Lago Maggiore Conference" project: an Italian association promoted by the Chamber of Commerce of Verbania, Cusio and Ossola offering a contact point for international organisations seeking an event location offering high standards in meeting rooms and professional services.

Specialised facilities for every need

The Regina Palace offers a variety of different sizes, including three new conference halls, *Tiffany*, *New Liberty* and *Baccarat*. All the halls can be customised with the equipment required for presentations of any kind: flipboards and transparencies, beamer projectors, microphones, telephones, podiums, remote controlled lights, pens, notepads, glacettes, electric screens, hospitality desks, and electrical, tv and computer outlets. Chairs with flip-up writing tablets and simultaneous interpretation cabins are available on request.

The hotel also offers internet access via HiPort: the first international network of HSIA (High Speed Internet Access) points, guaranteeing ultra-fast connection speeds.
