Description

Unique character and comfort are the terms that best define this 4-star Vincci hotel.

Located at the very heart of the old city, the project includes the renovation of a historic building dating back to the year 1900. As protected heritage, the central staircase, main facade and tiled floors have been maintained. The result is a truly incomparable establishment where design and tradition coexist in perfect harmony whilst respecting the modernist essence of the city.

This, coupled with the comfort and service offered, makes it the perfect place for all types of guests, regardless of whether their visit involves business or pleasure.
