## DRIVE ROUTE: STRBSKE PLESO & ZAKOPANE SCENIC ROAD

*Explore High Tatras on both Slovak and Polish side and find their hidden beauties*

1. Fasten your seatbelt ladies and gentlemen, your first stop is mountain village Stary Smokovec, also a starting point of many hiking routes, where your eye will catch dominant Slavkovsky peak.
2. As the road continues you will enter Tatranska Lomica from which it is possible to take cable cabin up the Lomnický peak or take a turn on Tatrabob mountain roller coaster.
3. Now as you slightly distance from mountains you will enter into more cultural sphere of our heritage. In Kezmarok you can visit evangelical lyceum with unique collection of books, take a walk on the old market from 13th century or visit the castle with many spooky legends.
4. If you turn towards Poland you will be passing Banianske Tatras with cave exposition of unique underground world.
5. Just few kilometers from slovak borders lies city Zakopane with its famous Krupowki street worth taking a stroll around. This place is alive any day in the year. It is decked with traditional polish restaurants and little souvenir shops. You may meet traditional cheese sellers or street artists which are also creating its unique busy welcoming atmosphere.
6. Back in Slovakia, on the way towards Liptovský Mikuláš you will be passing a dam Liptovská Mara which was made artificially by flooding a village with same name.
7. Your last stop before return is Pribylina famous from its open air museum of Liptov architecture. It was created to save some valuable sights from flooded village such as a church from 13th century. Museum is created to look like a real little village, so you can get authentic feeling of how common people used to live.

*Welcome back, hope you have enjoyed your ride!*
