## RACE TRACK - ASCARI

Ascari is located in the heart of Andalusia, near Ronda - Malaga. The longest track in Spain and one of the most spectacular in the world. Mountains and indigenous woodland characterise a terrain intentionally devoid of advertising boards common to other race circuits.

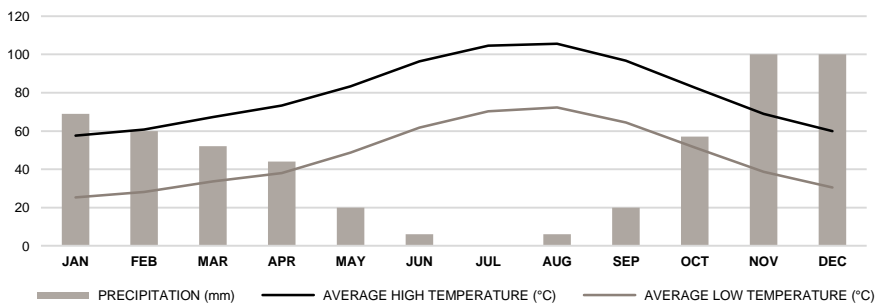

The full circuit is 5,425m long, with a consistent width of 12,2m and semi-draining surface. It can be subdivided into 3 different sections or combinations, enabling separate events or aspects of driver training to be run simultaneously.

The 26 corners of this anti-clockwise circuit are divided into 13 right-hand and 13 left-hand turns, offering a balanced course. To further challenge both car and driver, the track includes bends with up to 18% banking, 12% ascents and descents and demanding chicanes.
