MALTA INFORMATION:

The Maltese Archipelago lies virtually in the centre of the Mediterranean Sea, some 93kms south of the Italian island of Sicily, yet Malta is just a few hours flying time from most mainland European cities and has excellent intercontinental connections. Choose from scheduled services or charter flights, many of which offer a convenient departure point from European regional cities

The national airline, Air Malta, operates flights to and from all the major airports in Europe, North Africa and the Middle East. Other airlines operating to Malta include Alitalia, Lufthansa, Emirates, SAS, Ryanair, EasyJet.

TIME ZONE:

GMT plus one hour (CET/CEST)

Malta's climate is strongly influenced by the sea and is typical of the Mediterranean. The Islands have a very sunny climate with a daily average of five to six hours sunshine in mid-winter to more than 12 hours in summer.

Winters are mild, with the occasional short chilly period brought about by the north and north-easterly winds from Central Europe.

Summers are dry and very sunny. Daytime temperatures in summer are often mitigated by cooling sea breezes, but in spring and autumn a very hot wind from Africa occasionally brings high temperatures.

Annual rainfall is low, averaging 578mm a year and the length of the dry season in summer is longer than in neighbouring Italy.

CURRENCY:

EURO (€)

The official languages are Maltese and English. Maltese is a language of Semitic origin written in the Latin script. Over the centuries, it has incorporated many words derived from Italian, English and French.

ELECTRICITY:

The electrical supply is 240 volts, 50 Hertz. The British standard three-pin rectangular plug system is used.
