# Antalya Golf Club

To play one great golf course is always a challenge. To play two is a rare privilege indeed. In Antalya Golf Club the challenge awaits...

## THE PGA SULTAN AND THE PASHA COURSE

The courses, designed by leading architects European Golf Design together with design consultant and Senior Tour professional David Jones, provide not only a challenge to golfers of all abilities but also wonderful surroundings to enjoy your game. The playing surfaces, second to none in their quality, stunning landscapes and perfect weather all combine for an unforgettable golfing experience.

## THE PGA SULTAN COURSE 18 HOLES CHAMPIONSHIP GOLF COURSE PAR 71, 6477 METERS

The PGA Sultan beckons the heartiest of golfers to take par 71, 6477 Meters challenge. European Golf Design and David Jones spared nothing to maintain the competitive level of the course, while at the same time blending it seamlessly into the forest environment. Created for the discerning golfer, the PGA Sultan delivers a stern but rewarding test of golfing ability that any keen player will relish.

## THE PASHA COURSE 18 HOLES, PAR 72, 5731 METERS

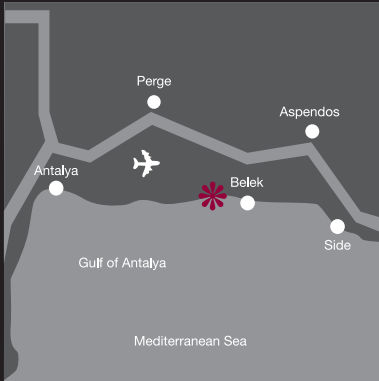

At an inviting 5731 Meters, you may think that The Pasha would be a walk in the woods, but don't be fooled by the scenery! The Pasha will test the skills of high and low handicappers alike with a combination of different challenges. Tricky dog legs, cleverly placed bunkers and undulating greens will ensure that the more experienced golfer must think over each shot carefully. The shorter length coupled with generous fairways will not unfairly punish the higher handicapper for any wayward shots.
