# Marski by Scandic – the first signature hotel in Finland

**MARSKI BY SCANDIC WILL OPEN ITS DOORS IN THE HEART OF HELSINKI CITY CENTER IN JUNE 2019.**

Marski by Scandic has an urban beat with a Finnish twist. Marski has been born in the midst of a new era of creative, open-minded and constantly renewing Helsinki. It is an inspiring arena, where the creators of creative and innovative Finland, our experience-loving guests and our full-hearted, service-minded staff meet. This is all about *Finnfulness* – a modern attitude that opens doors to Helsinki as we see it and experience it.

Marski connects his guests with bubbling city culture, fresh start-ups, rising bands and brands. Marski is a door to a real, creative, and in the right way a strange world that is also called Finland. It's easy to feel comfortable and have a good night's sleep. The room selection is versatile, and you can choose from several alternatives, from luxurious suites to rooms without a window where the city sounds won't disturb your sleep. Having a good night's sleep is important to us, therefore the beds are particularly comfortable, and the pillow selection is extensive.

However, you'll rarely come to Marski just to sleep. Many events guarantee that there will be plenty of action at the hotel. Our hotel's own Lifestyle Concierge will make sure that your visit is everything you want.

The hotel's restaurants have been designed for both guests and locals. Marski's legendary bar is among the elite of cocktail bars. In the restaurant, you can try Finnish classics with an international twist. The street-level coffee shop tempts people passing by with the scent of freshly-roasted coffee.

The hotel's event facilities provide a refreshing alternative in the city's offering. As well as providing meeting facilities, Marski can be transformed into a perfect setting for workshops, co-creation sessions or unforgettable kick-offs.

The hotel has an own parking garage, gym and offers exercise classes free of charge for our hotel guests.
