CREATIVE SPACES - SOCIAL AREAS FOR NEW IDEAS

New spaces feed new ideas. That was the guiding thought when we developed our Creative Spaces where you can conduct meetings, brainstorm, team build and do workshops in environments that makes it easy for the mind to think freely and creatively. Perhaps through a film screening in the movie theatre Nightwood that seats 25 people or a board meeting in Cocoon, a cosy space for a group of ten. For larger groups, up to 40 people, the playful and spacious Game Room will encourage you to find innovative solutions to old challenges. Naturally we will customise the food and beverage to your preferences.
