Food & Drink

Drink. Dine. And dance. Sea Containers London has the lot covered.

Our hotel plays host to our Sea Containers Restaurant promising fresh, local, seasonal ingredient led cuisine. It boasts a rooftop lounge with unparalleled panoramic views over the River Thames. And it houses the world's best cocktail bar. Officially. There's plenty to see out there.

There's an argument to suggest you won't need to.

12th Knot

This is our roof terrace bar and lounge. Plush seating, seasonal and ingredient led cocktails and food, DJs and live music - all set against an unrivalled backdrop of the River Thames and London.

A true reflection of South Bank's vibrant energy, expect bright, verdant décor and an open-plan layout which puts the panoramic views centre stage. So whether you're curled up on a window seat, relaxing on the balcony, mingling at the bar or on the dancefloor, London's breath-taking skyline is the main attraction.

Lyaness

Lyaness is the creation of multi award-winning bartender Ryan Chetiyawardana A.K.A Mr. Lyan. In a vibrant space overlooking the Thames, Lyaness harks back to the glamour of the most opulent homes with an energy befitting of the best parties.

It's a cocktail bar that goes beyond the simple focus of what's in your glass. The interiors, designed by Jacu Strauss, feature Lyaness' signature electric blue alongside a standout green marble bar.

The menu itself is a continuation of Team Lyan's curiosity to find new ingredients and make these unusual, alien and outright weird forms more delicious. Sectioned around these ingredients instead of drinks, the menu steps away from the traditional cocktail list and allows the Lyaness team to connect you to your ideal drink.

Influenced by the Mediterranean's rich variety, colour and freshness, our all-day menu is uncompromising on the ingredients you see on your plate.

Mid-weeks are a calm, relaxed, intimate affair. The weekend vibe is, well, what a weekend vibe should be - epitomised by our bottomless Bloody Mary or Prosecco brunch offering.
