Seating Arrangements

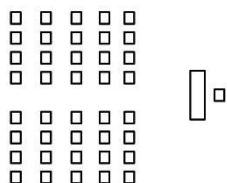

U-Shape

In this style of seating, the tables are placed u-shaped. The chairs are located only on the outside of the tables, leaving the interior free.

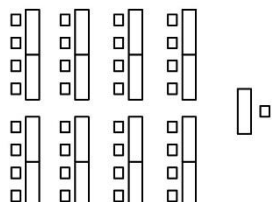

Block / Boardroom

The block board is used to set up long square tables with chairs in the room. This allows a good communication in a small round.

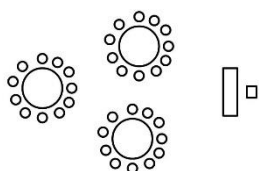

Theater seating / Cinema seating

Theater seating is the setting up of rows of chairs. For large-scale events with many participants, this style of seating is therefore very appropriate.

Classroom / Parliamentary Seating

In the parliamentary style, square tables are placed in rows one behind the other. The chairs are located behind the tables, so all participants in the event are facing one direction.

Banquet style / Cabaret style

The banquet style consists of round tables with chairs distributed throughout the room. The difference with cabaret seating is that in the cabaret seating, chairs are placed on one side only, looking in a certain direction.
